"I love couples who are in love, and don't mind showing it! Capturing the emotion and dreaminess of your wedding day is my favourite. My film like, light + airy style makes your chic details and luxurious venue setting look beautiful. I prefer a laid back approach which creates relaxed, candid moments you can cherish for generations.

About my work....

I've been photographing weddings since 2013 both in the UK and also abroad. Now, having a family, I like to stay in the UK and capture the stunning venues my own country has to offer.

my favourite

Bride + Groom portraiture along with wedding details are my speciality, taking time to carefully capture in an editorial approach. I adore elegance and the minor, but important, touches.

My style is light + airy and fine art. I adore light backdrops and bright, well lit venues, teaming with natural light. The better the natural light, the better quality your photos will be. White, neutral and pastel tones are my absolute favourite and show my style off to its best!
My signature editing style has been designed and perfected over 8 years and brings softness to your skin and enlightens your tones making your wedding photos look fresh and timeless.

beautiful extras

Fancy having some images the day after your wedding day? I always edit and send over a wonderful set of previews and you'll see them when you wake up on your first morning as newly weds!

Things to remember when booking a photographer

It can be overwhelming booking suppliers for your wedding day. Here's what to look for when securing your photographer.

- Ensure they have experience, the more the better.
- Quality over quantity. Don't get caught up in receiving 2000 images, I'm sure you'd rather 600 amazing ones than thousands of average ones.
- Price often reflects the end product and service you'll receive. It's best to invest well in photography which will last a lifetime.
