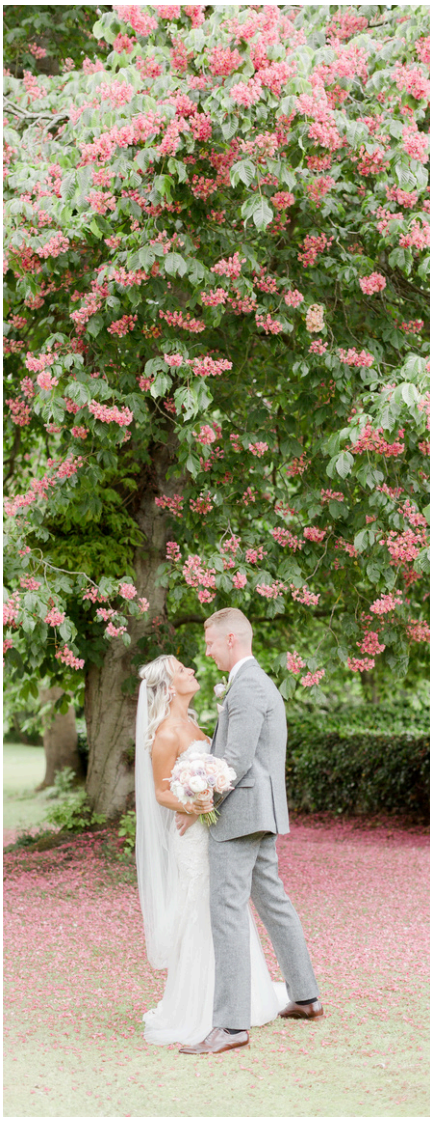
Congratulations on planning your wedding. Let's get your petite film sorted...

IVORY WHITE WEDDINGS



What I offer for my amazing couples...

1. My unique and elegant light and airy editing style which has been designed over many years by myself.

2. Experience. With hundreds of weddings photographed, I have 13 years of wedding experience to use as your film maker.

3. A friend on the day. A gentle smile and relaxed approach, lets have a wonderful day together!

> I love couples who trust fully in the process. Those that want unobtrusive and candid footage captured carefully and beautifully, ready for you only 7 days after your wedding.

About my work....

I've been in the wedding industry since 2013. I like to capture the stunning venues my own country and surroundings have to offer. I added Petite Wedding Films to give my couples wonderful footage from their day edited in my signature style.

my favourite

I like to take time to capture raw moments and exquisite details in an editorial approach. I adore elegance and the minor, but important, touches.

Without trends, I prefer classic and timeless looking films which will age wonderfully for generations.
I have a keen eye for beauty and detailing. I adore natural moments and my favourite is just creating videos you have no idea I've captured. Receiving your film will be heartwarming and a joy to watch.

Why is it called Petite Wedding Films?

Petite Wedding films are essentially a shorter version of a Wedding Videographer but no less amazing on quality and what's captured. Unlike a Videographer with multiple cameras, operators, tripods, microphones and set ups, I prefer a more minimal approach, capturing the day softly and quietly without feeling like I'm being intrusive. I work solo and blend in, ensuring your day is not overpowered by cameras.

Music...

Your film will include soft, dreamy music that fits perfectly with my shooting and ediitng style.

The music included, compliments the slow and emotive film and you'll totally agree when you receive it!

beautiful extras

If you have beautiful extras in your wedding let me know! Champagne tower? Embroided veil? I love to make sure I've captured those personal touches you've chosen.

Things to remember when booking a film maker...

It can be overwhelming booking suppliers for your wedding day. Here's what to look for when securing your content creator.

- Ensure they have experience of the wedding industry, the more the better.
- Are they professional? Do they have insurance?
- Do you get a good feel for them through their website, brochures and content?

length of coverage

Choosing the length of coverage is up to you. However to help guide you, I can suggest what works and how long is best to have to cover everything you'll need and love in your film.

How long to book....

If booking per hour and you'd like bridal prep covered, as a rule I advise the coverage to start 1.5 hours prior to your ceremony time (or prior to you leaving a location to go to your ceremony).

If you'd like everything covered then the full day package is perfect. Know you have me from bridal prep-first dance. You can even add on more hours after your first dance if you'd like wonderful party footage.

“I’m so glad we booked Helen for our wedding film. On the day itself she was more like a friend and to top it off, our film is absolutely wonderful! It’s the perfect length and beautifully edited.

The bits you need to know...

- If you wish to book I require a signed contract and £300 booking fee. This secures your date. No dates are held.
- Remaining payments can be made in instalments or in one lump sum, your choice, as long as it’s all settled 1 month prior to your wedding date.
- You’re welcome to book before having a chat, there’s lots of time for catch ups!

FAQs

How are the Petite Films different to a Wedding Videographer?
Wedding videographers often create more staged and lengthy wedding videos with high price tags. My Petite Films are perfect in length and showcase your wedding day beautifully. I work solo and quietly, not to be intrusive at all.

What equipment do you use?
I use Sony camera + DJI osmo for filming weddings.

What do I get?
You'll be sent a sweet highlight film you can use to announce your marriage or just to watch again and again followed by a longer 5-10 minute film. Films are shot and delivered in landscape.

Do I recieve the raw film clips?
No. You receive the highlight film and full film carefully edited and curated professionally.

What do you capture?
I will be aiming to capture your wedding day from a behind the scenes perspective. Encapsulating all the emotion, beauty and joy that unfolds authentically.

How do I receive everything?
You'll receive a private online gallery where you can download and save your films! If you choose Full day coverage you'll receive a USB.

What do the petite films capture/not capture?
Petite Films capture many moments throughout your coverage, all edited together carefully to produce a gorgeous film. I don't capture full length ceremonies, speeches etc. I capture smaller portions of each, such as vows, bridal entrance etc and some speeches + guests reactions. ***If you require full ceremony + speeches, these can be added for £50 each and are sent unedited (shot on a DJI osmo from one angle only) + separately from the edited film.***

Next steps

If there's anything I haven't covered in this guide or further questions you may have, feel free to reach out. I'd always rather couples ask questions prior to making any decisions. Your wedding is a very special and you must choose a fil maker who you can trust, rely on and bond with to get the very best from your investment.

If you're set and ready to book, contact me and I'll be happy to send you the booking instructions.

Lots of love

I can't wait to hear from you!
