About my work....

I've been in the wedding industry since 2013. I like to capture the stunning venues my own country and surrounding has to offer. I added Petite Wedding Films to give my couples wonderful footage from their day edited in my signature style.

my favourite

I like to take time to capture raw moments and exquisite details in an editorial approach. I adore elegance and the minor, but important, touches.

Without trends, I prefer classic and timeless looking films which will age wonderfully for generations.

I have a keen eye for beauty and detailing. I adore natural moments and my favourite is just creating videos you have no idea I've captured. Receiving your film will be heartwarming and a joy to watch.

beautiful extras

If you have beautiful extras in your wedding let me know! Champagne tower? Embroided veil? I love to make sure I've captured those personal touches you've chosen.

FAQs

How are the Petite Films different to a Wedding Videographer?

Wedding videographers often create more staged and lengthy wedding videos with high price tags. My Petite Films are perfect in length and showcase your wedding day beautifully. I work solo and quietly, not to be intrusive at all.

What equipment do you use?

I use Sony camera + DJI osmo for filming weddings.

What do I get?

You'll be sent a sweet highlight film you can use to announce your marriage or just to watch again and again followed by a longer 4-6 minute film. Films are shot and delivered in landscape.

What do you capture?

I will be aiming to capture your wedding day from a behind the scenes perspective. Encapsulating all the emotion, beauty and joy that unfolds authentically. I film this in short snippets of films.

How do I receive everything?

You'll receive a private online gallery where you can download and save absolutely everything!

Is it like content creation?

Think content creation and elevate it, lots! It's the perfect blend of behind the scenes moments, captured professionally and edited beautifully.

What do the petite films capture/not capture?

Petite Films capture smaller snippets and short videos of many moments throughout your coverage, all edited together carefully to produce a gorgeous mini film. I don't capture full length ceremonies, speeches etc. I capture smaller portions of each, such as vows, bridal entrance etc and some speeches + guests reactions. *If you require full ceremony + speeches, these can be added for £50 each and are sent unedited + separately from the edited film.*

Your wedding is a very special and you must choose a filmmaker who you can trust, rely on and bond with to get the very best from your investment.

If you're set and ready to book, contact me and I'll be happy to send you the booking instructions.

Lots of love

I can't wait to hear
from you!
